

Plant a Rain Garden!

Make a difference!

With a rain garden, you'll:

- Save water by reducing polluted storm runoff
- Create habitats for native plants and animals
- Build green space for people to enjoy

Register your results and take the Girl Scouts Forever Green Pledge at girlscouts.org/geforevergreen.

Brought to you by:

Fun Fact:

If 3 million Girl Scouts each plant a rain garden, the water saved would amount to 11.4 billion gallons.
