

Troop For Troop Cookie Donations

1. Enter the boxes sold per girl (or per troop) in the TFT column. This total adds to the girl's total. DO NOT enter TFT numbers in the different varieties as it will double the girl's total boxes sold amount.
2. Enter the money paid in the same line as the TFT entry number.
3. At the end of the sale, the total in the TFT column is the total number of boxes you need to fulfill your troops for troops order. Your inventory numbers should reflect this number.

	TFT	LCC	Tre	D-S-D	Sam	All	SFCCTags	TMint	Total				
Girl Totals	52	181	226	240	413	134	92	276	582	2196	7686.00	1640.50	\$ 6045.50
Troop Order	0	192	216	240	420	144	96	288	600	2196			
Difference	52	-11	10	0	-7	-10	-4	-12	-18	0			

4. The troop in this example has 52 boxes of TFT cookies to donate and has exactly 52 boxes left in inventory. Therefore, the Total amount is 0, yet the boxes still show in each variety so the troop knows exactly what to donate.

	TFT	LCC	Tre	D-S-D	Sam	All	SFCCTags	TMint	Total				
Girl Totals	88	181	226	240	413	134	92	276	582	2232	7812.00	1640.50	\$ 6171.50
Troop Order	0	192	216	240	420	144	96	288	600	2196			
Difference	88	-11	10	0	-7	-10	-4	-12	-18	36			

5. In the example above, the troop has sold 88 boxes of TFT cookies. However, it only has 52 boxes in inventory. The troop needs to check out 3 more cases from the cookie cupboard to fulfill the TFT cookie donation. Since the troop sold the cookies and already collected the money, it is necessary for the troop to take more cookies from the cupboard to donate to the Troops for Troops program. The troop can fill out a receipt for the cookies requested, sign it, and turn it in with the rest of their paperwork at the end of the cookie sale. Or the troop can make a trip to the cupboard with their donation cookies and check out 3 more cases. Either way, the troop must take their donation to one of the cookie cupboards in the council and be receipted for their donation.

6. The last example is of a troop who is donating 66 boxes of TFT cookies.

	TFT	LCC	Tre	D-S-D	Sam	All	SFCCTags	TMint	Total				
Girl Totals	66	181	226	240	413	134	92	276	582	2210	7735.00	1640.50	\$ 6094.50
Troop Order	0	192	216	240	420	144	96	288	600	2196			
Difference	66	-11	10	0	-7	-10	-4	-12	-18	14			

All cookies checked out of the cupboard must be in full cases. Therefore, this troop must check out 2 cases from the cupboard and is responsible for selling the extras. Or the troop may just purchase 2 boxes from another troop or the council and check out just 1 case. The purchased boxes plus the case must be turned in with the rest of the troop's cookie inventory in order to fill the TFT order.

In all examples, the Total column would equal 0 after all cupboard transactions.
