## keeping track

For one day: Keep track of the different types of advertisements you see. Make a checkmark every time you see an ad in a magazine, on TV, or on the computer.

A grid of 30 empty rectangular boxes, arranged in 10 rows and 3 columns, intended for tracking advertisements. Each box is outlined in pink and is currently empty.

Add the checkmarks together. What does this tell you about the number of advertising messages you are receiving each day?
