

**Topic: Cooking**

**Badge: Use Resources Wisely (Clover)**

Suggested Supplies: Honey and other food stuff in your own kitchen

Steps:

Activity 1: Watch Clover's story [click here](#)

- Talk about how the bees use the resources around them in nature to make something yummy

**Fun Fact-** Following a recipe is fun and usually tastes good, but we can't go out and go to the store for everything right now. You can use your imagination and create something yummy with what you have at home right now!

Activity 2: Make a yummy snack or lunch

- Look around in your kitchen, refrigerator and cabinets for some yummy ingredients (ask for an adult's help)
- Use the stuff you have available to you to make a yummy treat, like the bees do when they fly around and see what they can find around where they live.

Activity 3: Share your yummy treat

- Fix enough to share your treat with a family member

**Be sure and tell your troop leader that you completed this badge!**
